ABOUT FACULTY OF EDUCATION

Faculty of Education Alexandria University was established at the beginning of the academic year 1966-1967. It has a distinguished geographical location.

- The faculty has a distinguished academic standing and reputation that it has achieved since its establishment.
- Availability of an appropriate number of faculty members (24 working professors - 112 full-time professors - 42 assistant professors - 158 working teachers) and the supporting staff (38 assistant teachers and 59 teaching assistants) who are specialized in various fields of knowledge, application and science.
- The presence of an excellent selection of faculty members and experts with doctoral degrees from abroad: England - France - America in multiple specializations.
- Availability of 285 employees, technicians and service assistants at the faculty in all departments and specializations.
- Diversity and multiplicity of specializations and branches of study in the BA and BA stages, represented in the General Education Teacher Preparation Program (for literary and scientific disciplines), the Basic Education Teacher Preparation Program, and the Kindergarten Teacher Preparation Program.
- Diversity of the faculty's postgraduate programs, represented in the general diploma program, professional diploma programs, private diploma, master's and doctorate programs for educational and specialized departments with its various branches and specializations.
- The existence of a scientific journal to publish scientific research in the educational field.
- The existence of special programs for teaching in English for people: Chemistry, Mathematics and Biology.
- Some faculty members received various scientific awards at the local and regional levels.
- The presence of a center for measurement and evaluation in the faculty to develop the construction process and design tests and electronic correction.
- The presence of a university center for professional development in the faculty.
- The contribution of the Educational Services Center in providing programs and training courses for community service.

Faculty Vision

Faculty of Education, Alexandria University is considered an academic educational institution that works to promote educational knowledge and its applications to serve the community and the world and to shape the world of teaching and learning. Hence, it works to develop education at all levels, including pre-university education and higher education, in order to achieve comprehensive and sustainable human development for the Egyptian society, in communication with the Arab and foreign world..

Faculty Mission

The Mission of the Faculty of Education, Alexandria University, is to build perceptions and take measures to train educational cadres and develop education at all levels, in cooperation with faculties of the university, the Ministry of Education, public and private schools, and other ministries concerned with education, such as culture, media, youth, and others. Emerging from this main Mission, direct tasks are represented in the teacher's continuous formation, by preparing a distinguished teacher before the service, developing him professionally during it, and promoting educational research, which helps in the production of educational knowledge, and development of policies and programs that serve the community and its development.

Faculty Aims

- Preparing high school graduates and university graduates and those at their level for the teaching profession.
- Conducting scientific research on education issues and publishing the results of these researches.
- Raising the professional level of workers in the field of education and introducing them to modern educational trends.
- Preparing specialists and leaders in the different aspects of the teaching and learning profession.

Faculty Departments

The Faculty of Education at Alexandria University consists of fifteen academic departments, some of which include sub-specialization divisions under the general specialization of the department, and the Department of sociology undertakes the administrative supervision of the "Psychology" division.

Educational Department

- Department of Foundation of Education
- Department of curriculum instruction
- Department of Educational Administration and Education Policies
- Department of Educational Psychology
- Department of Mental Health
- Department of Curriculum and Teaching Methods
- Department of Educational Technology

Specialized Sections/ Subsections

- Arabic language department
- English department
- French Language department
- German language department
- Sociology department
- History Division
- Geography Division
- Philosophy Division
- Sociology division
- Mathematics department
- Nature and Chemistry department
- Physics Division
- Chemistry Division
- Department of Biological and Geological Science.

Programs and Academic Degrees Granted by the Faculty for the undergraduate, Bachelor's / Licence and Postgraduate Degrees at the Faculty of Education

The Faculty of Education, Alexandria University, has been keen to apply the **Credit Hour System** at the undergraduate, bachelor's and postgraduate levels because of the advantages that this system has that serve the educational process and contribute to its enrichment, and helps to raise the level of graduates, and qualifies them to compete in line with the requirements of the local and global labor market; On the basis of the ability of studying in the credit-hour system to prepare an outstanding teacher within the framework of keeping pace with the developments of international university education systems.

- General Diploma for Teacher Preparation in Arts "from the French Language Department"
- General Diploma for Teacher Preparation in Arts, Department of Social Sciences, "History Division"
- General Diploma for Teacher Preparation in Arts, Department of Social Sciences, "Geography"
- General Diploma for Teacher Preparation in Arts, Department of Social Sciences "Social"
- General Diploma for Teacher Preparation in Arts, Department of Social Sciences, "Philosophy"
- General Diploma for Teacher Preparation in Science from the Department of Mathematics.
- General Diploma for Teacher Preparation in Science from the Department of Nature and Chemistry "Physics"
- General Diploma for Teacher Preparation in Science from the Department of Nature and Chemistry "Chemistry"
- General Diploma for Teacher Preparation in Science from the Department of Biological and Geological Sciences "Biology - Plant Specialization"
- General Diploma for Teacher Preparation in Science from the Department of Biological and Geological Sciences "Biology - Animal Specialization"
- General Diploma for Teacher Preparation in Science from the Department of Biological and Geological Sciences "Geology"

3- Professional Diploma in Education:

The professional diploma aims to prepare graduates of the faculties of education scientifically and professionally in one of the specializations offered by the departments of the educational faculty with its various specializations, which number (29):

- Adult education.
- Child rearing.
- Educational reform.
- University and higher education.
- The quality of educational systems and academic accreditation.
- Contemporary higher education systems.
- Quality and educational accreditation systems for contemporary education systems.
- Educational administration.
- School administration.
- Education policies and planning.
- Psychological and educational standard.
- Preparation of a talent and creativity specialist.
- Educational and professional guidance.
- School psychologist.
- Special Education.
- Learning difficulties.
- Compensatory education and behavior modification.
- Psychological counseling.
- Curricula and educational programs.
- Methods of teaching one of the subjects.
- Methods of teaching physics in English.
- Methods of teaching chemistry in English.
- Methods of teaching mathematics in English.
- Methods of teaching biological and geological sciences in English.
- Methods of teaching physics in French.
- Methods of teaching chemistry in French.
- Methods of teaching mathematics in French.
- Methods of teaching biological and geological sciences in French.
- Education technology.

4- Special Diploma in Education:

The special diploma in education aims to prepare students and enable them to master the basics of educational research in the specializations of the educational department in which they are registered and the specializations offered in the faculty, which are (8) programs:

- Special Diploma in Education from the Department of Pedagogy "specializing in Pedagogy"
- Special Diploma in Education from the Department of Fundamentals of Education "Child Education Specialization"
- Special Diploma in Education from the Department of Comparative Education.
- Special Diploma in Education from the Department of Educational Administration and Education Policies.
- Special Diploma in Education from the Department of Educational Psychology.
- Special Diploma in Education from the Department of Mental Health.
- Special Diploma in Education from the Department of Curricula and Teaching Methods.
- Special Diploma in Education from the Department of Education Technology.

5- A special diploma for teacher preparation in arts or teacher preparation in sciences:

This diploma aims to increase the depth of the specialized academic branches in the literary or scientific disciplines, and to train the student on the principles of scientific research in his field of specialization. in Arts, and (7) teacher preparation programs in sciences.

- Special Diploma for Teacher Preparation in Arts "from the Department of Arabic Language"
- Special Diploma for Teacher Preparation in Arts "from the French Language Department"
- Special Diploma for Teacher Preparation in Arts, Department of Social Sciences, "History "
- Special Diploma for Teacher Preparation in Arts from the Department of Social Sciences "Geography Division, specializing in Human Geography"
- Special Diploma for Teacher Preparation in Arts from the Department of Social Sciences "Geography Division, specializing in physical geography"
- Special Diploma for Teacher Preparation in Arts from the Department of Social Sciences "Social "
- Special Diploma for Teacher Preparation in Arts, Department of Social Sciences, "Philosophy "
- Special Diploma for Teacher Preparation in Science from the Department of Mathematics.
- Special Diploma for Teacher Preparation in Science from the Department of Nature and Chemistry "Physics "
- Special Diploma for Teacher Preparation in Science from the Department of Nature and Chemistry "Chemistry - Specialization in Inorganic and Physical Chemistry"
- Special Diploma for Teacher Preparation in Science from the Department of Nature and Chemistry "Chemistry - Specialization in Organic Chemistry"

- Special Diploma for Teacher Preparation in Science from the Department of Biological and Geological Sciences "Biology - Plant Specialization"
- Special Diploma for Teacher Preparation in Science from the Department of Biological and Geological Sciences "Biology - Animal Specialization"
- Special Diploma for Teacher Preparation in Science from the Department of Biological and Geological Sciences "Geology"

B- Master's degrees:

1- Master's Degrees in Education:

The master's degree in education aims to prepare researchers in one of the educational departments and specializations offered by the faculty, which number (8) programs:

- Master's degree in Education from the Department of Pedagogy "specializing in Pedagogy"
- Master's degree in Education from the Department of Fundamentals of Education "specializing in child education"
- Master's degree in Education from the Department of Comparative Education.
- Master's degree in Education from the Department of Educational Administration and Education Policies.
- Master's degree in Education from the Department of Educational Psychology.
- Master's degree in Education from the Department of Mental Health.
- Master's degree in Education from the Department of Curriculum and Instruction.
- Master's degree in Education from the Department of Educational Technology.

2- Master's degrees for teacher preparation in the arts or for teacher preparation in sciences:

The master's degree aims to prepare the teacher in the arts or to prepare the teacher in the sciences to prepare researchers in one of the specialized departments, its divisions and specializations offered by the faculty, which number (20) programs:

- Master's degree for teacher preparation in Arts "from the Department of Arabic Language"
- Master's degree for teacher preparation in Arts "from the French Language Department"
- Master's degree for teacher preparation in Arts, Department of Social Sciences, "History Division, specializing in ancient history"
- Master's degree for teacher preparation in Arts from the Department of Social Sciences "History Division, specializing in intermediate history"
- Master's degree for teacher preparation in Arts from the Department of Social Sciences "History Division, specializing in Islamic history"
- Master's degree for teacher preparation in Arts from the Department of Social Sciences "History Division, specializing in Modern and Contemporary History"
- Master's degree for teacher preparation in Arts from the Department of Social Sciences "Geography Division, specializing in human geography"

- Master's degree for teacher preparation in Arts from the Department of Social Sciences "Geography Division, specializing in physical geography"
- Master's degree for teacher preparation in Arts from the Department of Social Sciences "Social Division"
- Master's degree for teacher preparation in Arts from the Department of Social Sciences "Philosophy "
- Master's degree to prepare a teacher in science from the Department of Mathematics.
- Master's degree for teacher preparation in science from the Department of Nature and Chemistry "Physics - Nuclear Physics specialization"
- Master's degree for teacher preparation in science from the Department of Nature and Chemistry "Physics - Solid State Physics specialization"
- Master's degree for teacher preparation in science from the Department of Nature and Chemistry "Physics - Theoretical Physics specialization"
- Master's degree for teacher preparation in science from the Department of Nature and Chemistry "Chemistry - Specialization in Organic Chemistry"
- Master's degree for teacher preparation in science from the Department of Nature and Chemistry "Chemistry - Specialization in Inorganic Chemistry"
- Master's degree for teacher preparation in science from the Department of Nature and Chemistry "Chemistry - Specialization in Natural Chemistry"
- Master's degree for teacher preparation in science from the Department of Biological and Geological Sciences "Biology - Plant Specialization"
- Master's degree for teacher preparation in science from the Department of Biological and Geological Sciences "Biology - Animal Specialization"
- Master's degree for teacher preparation in science from the Department of Biological and Geological Sciences "Geology "

C- Doctorate of Philosophy degrees:

1- Doctor of Philosophy Degrees in Education:

The Doctor of Philosophy degree in Education aims to prepare faculty members and researchers in one of the educational departments and their specializations offered by the faculty in order to enrich educational and research knowledge, which are (8) programs:

- Doctorate of Philosophy in Education from the Department of Pedagogy "specializing in Pedagogy"
- Doctorate of Philosophy in Education from the Department of Pedagogy "specializing in Child Education"
- The degree of Doctor of Philosophy in Education from the Department of Comparative Education.
- Doctor of Philosophy in Education from the Department of Educational Administration and Education Policies.
- A Doctor of Philosophy degree in Education from the Department of Educational Psychology.
- Doctor of Philosophy in Education from the Department of Mental Health.
- Doctor of Philosophy in Education from the Department of Curriculum and Instruction.
- Doctor of Philosophy in Education from the Department of Education Technology.

2- Doctorate of Philosophy degrees for teacher preparation in the arts or for teacher preparation in the sciences:

The Doctor of Philosophy degree aims to prepare the teacher in the arts or to prepare the teacher in the sciences to prepare faculty members and researchers in one of the specialized departments, its divisions and specializations offered by the faculty in order to enrich educational and research knowledge, which are (20) programs:

- Doctor of Philosophy degree for teacher preparation in Arts "from the Department of Arabic Language"
- Doctorate of Philosophy degree for teacher preparation in Arts "from the French Language Department"
- Doctor of Philosophy degree for teacher preparation in Arts, Department of Social Sciences, "History Division, specializing in ancient history"
- Doctorate of Philosophy degree for teacher preparation in Arts, Department of Social Sciences, "History, specializing in Intermediate History"
- Doctor of Philosophy degree for teacher preparation in Arts from the Department of Social Sciences "History, specializing in Islamic History"
- Doctorate of Philosophy degree for teacher preparation in Arts, Department of Social Sciences, "History Division, specializing in Modern and Contemporary History."
- Doctor of Philosophy degree for teacher preparation in Arts, Department of Social Sciences, "Geography, specializing in Human Geography"
- Doctor of Philosophy degree for teacher preparation in Arts from the Department of Social Sciences "Geography, specializing in physical geography"
- Doctor of Philosophy degree for teacher preparation in Arts, Department of Social Sciences "Social "
- Doctor of Philosophy degree for teacher preparation in Arts, Department of Social Sciences, "Philosophy "
- Doctor of Philosophy degree to prepare a teacher in sciences from the Department of Mathematics.
- Doctor of Philosophy degree to prepare a teacher in science from the Department of Nature and Chemistry "Physics - Nuclear Physics specialization"
- Doctor of Philosophy degree to prepare a teacher in science from the Department of Nature and Chemistry "Physics - Solid State Physics"
- Doctor of Philosophy degree to prepare a teacher in science from the Department of Nature and Chemistry "Physics - Theoretical Physics specialization"

Doctor of Philosophy degree to prepare a teacher in science from the Department of Nature and Chemistry "Chemistry - Specialization in Organic Chemistry"

Doctor of Philosophy degree to prepare a teacher in science from the Department of Nature and Chemistry "Chemistry - Specialization in Inorganic Chemistry"

- Doctor of Philosophy degree to prepare a teacher in science from the Department of Nature and Chemistry "Chemistry Division - Specialization in Natural Chemistry"

- Doctor of Philosophy degree to prepare a teacher in science from the Department of Biological and Geological Sciences "Biology - Plant Specialization"

- Doctor of Philosophy degree to prepare a teacher in science from the Department of Biological and Geological Sciences "Biology - Animal Specialization"

Doctor of Philosophy degree to prepare a teacher in science from the Department of Biological and Geological Sciences "Geology "

The Most Important Special and Distinguished Academic Programs

There are (5) programs that grant a bachelor's degree in science and education in the Specialties of mathematics, chemistry, physics, biological sciences, and geosciences in English and taught in English according to the courses in the corresponding divisions in Arabic, provided that the educational and cultural study is in Arabic. Programs (3) programs in the disciplines of (chemistry - biology - mathematics). These programs are:

- The Bachelor of Science and Education Program for General Education (in English) in Chemistry

- The Bachelor of Science and Education Program for General Education (in English) in (Biology).

- The Bachelor of Science and Education Program for General Education (English) in Mathematics .

- Bachelor of Science and Education for General Education (in English) degree in Physics.

Bachelor's Degree in Science and Education for General Education (in English) in Geological Sciences.

The Most Important Specialized and Research Centers Available:

Educational Services Center:

Created Date:

The center was established by a decision of the University Council on 25th of November 1997, in the executive regulations of the Universities Organizing Law, and Resolution No. 21 of March 27, 2006 approving the establishment as the competent authority.

Center Objectives:

- The effective contribution of the Faculty of Education to community service in the field of professional development for citizens in general and teachers in particular.
- Interrelationship and interaction between the Faculty of Education and other educational institutions.
- Contribute to the development of the capabilities and skills of education personnel through training on tablets and the ICDL teacher program.
- Contribute to the educational qualification of those who hold non-educational qualifications who are not graduates of the Faculty of Education.
- Building partnerships with many entities to support and enhance the activities and works of the Center.
- Preparing and implementing sustainable professional development programs for teachers who are not graduates of the Faculty of Education in cooperation with the Ministry of Education.
- Raising the professional competence of teachers of science, mathematics, social studies, Arabic and English.
- Training on how to deal with people with special needs by providing programs on speech and speech disorders, mental health and behavior modification, and psychological guidance.
- Training in the fields of computers and information technology.

**Statement of training programs at the Educational Services Center
(Faculty of Education - Alexandria University)**

Program Name	Training Hours	Level Cost
Educational Qualification	30	1000 700 for faculty of education 300 for teachers academy
